# Today with you from Nexis

**Andreas Hausmann**

IAM Consultant

Nexis GmbH

# Our Company

 Regensburg, Germany

We are true experts in Identity and Access Management (IAM) and passionate vendor of NEXIS 4, a technology-leading Identity Analytics & Governance Platform. Our dynamic team of security experts ensures continuous innovation and top-tier products for our clients. We are serving business sizing from 500 to 100.000+ employees in the DACH and EU regions directly or via our more than 15 sales and integration partners. Founded in 2009, we are supported by our German strategic scale-up partner Elvaston since 2022 to further support our growth.

> 15

Years in IAM

# NEXIS 4 adds value to **every** IAM deployment and product

- 100% web-based standard software
- Fully compatible with every IAM/IAG system
- Cloud (AWS, Azure) or on-premises operations

- No coding required
- Low implementation costs
- Template-based deployment

## AI-driven analytics

Highly performant filter engine provides unknown insights into any access data

## Smart access visualizations

Customizable visualizations displaying large-scale access data ease user acceptance

## Graphical workflow engine

Easy-to-use workflow engine for seamless implementation of any IAG use case

## Real-time governance

Automatic policy controls to meet regulatory requirements and internal guidelines

## Designed for end users

Fully configurable UI to provide tailor-made user experience for all stakeholders

# NEXIS 4 – Licensing & Modules

License is based on # of imported identities & used modules

## ANALYTICS

Visual analytics & modeling,  
SoD & compliance policies,  
reporting.

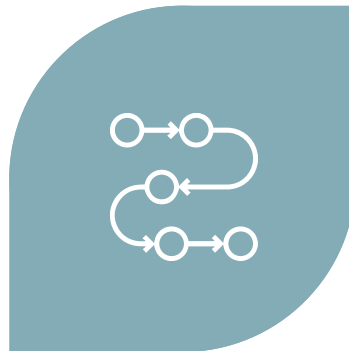

## BUSINESS

UI designer for dashboards,  
forms, end-user services.

## GOVERNANCE

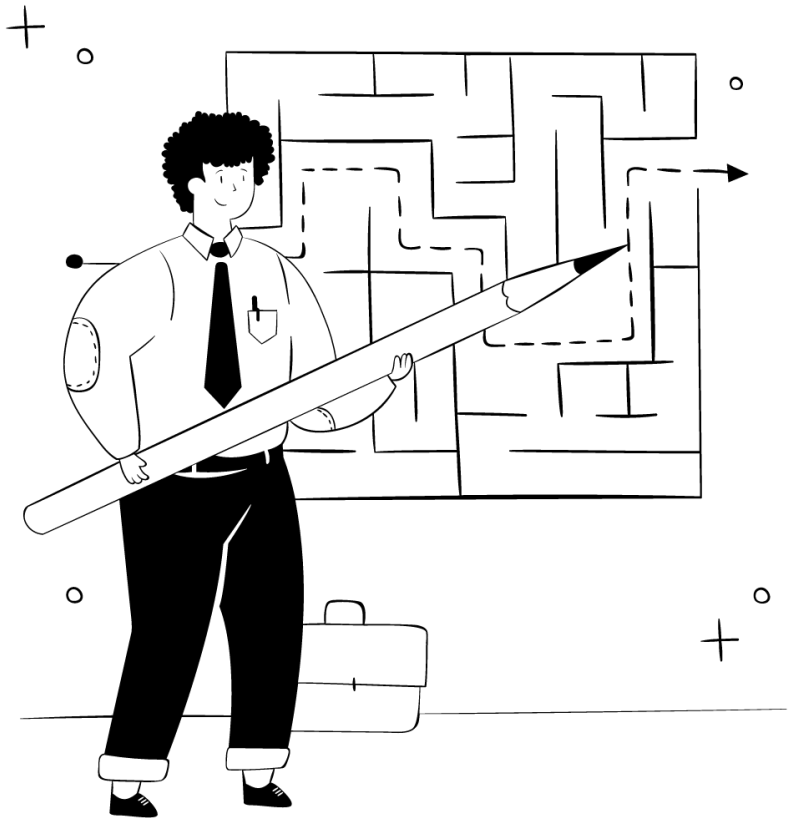

175+ configurable lifecycle &  
recertification workflows

## AUTHORIZATION CONCEPT

Audit-proof creation &  
maintenance of  
authorization concepts.
